••• About us

- We are a direct manufacturer and supplier of all kinds of **molded rubber products**, Including but not limited to: O-rings, gaskets, bumpers, bushings, washers, strips, sheets, seals, etc.
- Most are custom made to fit particular machines or products. Many are used in different fields: automotive, food and beverages, printing, engineering, mechanical, etc.
- We also fabricate various **metalworks** based on the customers specifications.

Order process

- You can provide us a sample, drawing, and/or description of the item so we can assist you and send you a quotation. And fabricate the item upon order. No minimum order but the costs are lower for bulk orders.
- Discounts are negotiable for repeat orders.
- Leadtime is usually 10-15 days, but can take shorter or longer depending on the item.
